FOREWORD

The Galatian Staff has assembled the material contained in these pages with the idea of perpetuating the activities of G.C.H.S. during the school year 1958-1959 so that time will not erase the fond memories of our pleasant associations together (grand and glorious to some of us) during the past four years.

We hope that our efforts will not be in vain, but that they will bring some enjoyment.

DEDICATION

*Best of luck to a nice teacher,
Phillip Adams*

To Mrs. Jane Wickham we dedicate this 1959 edition of the GALATIAN. We are quite aware that this is only a small way of showing our sincere appreciation for the time she has spent with us in our plays and classes in our four years here at G.C.H.S. We hope that this will help to show our love for her.

*TO THE COOLEST TEACH I
KNOW. I DEDICATE THIS BOOK

PRINCIPAL'S MESSAGE

In my opinion security, a primary concern of all people, is best attained through a lifetime of study. Whether this study be in college, trade school, or on-the-job it is essential in order that the services of an individual will be always in demand.

A high school diploma may help a person obtain a position in the world of work but it will not aid in his keeping that position. He continually must study the details of his job so that he becomes so skilled that a firm can make a profit from his knowledge.

My advice to high school students is this: Learn all you can in high school and college, if you go, and continue to learn after you are employed so that in later years you will not have to worry about employment - there will be a place for you.

CLASS PROPHECY

When the members of the class of 1959 received their diplomas, they went out into the world to seek a profession.

The day for our first reunion came, June 1, 1969. We were all to meet in our old home town at dear old Galatia High School.

I had just seated myself in the cafeteria to review the plans for the night when Lily Fowler, the owner of the "Powder-Puff" cosmetic firm came.

The next person to arrive was James Courtney, the manager of a large printing firm in St. Louis. While Lily and James were talking, I walked over to the window and saw Charles Karnes drive up in his new Karnesbird. Charles has been working on a design that would revolutionize the automotive industry. With Charles was Albert Langley, the owner of the Dew Motor Company. Albert is backing Jerry Sutton and Herschel Paris in the race at Annapolis. They will not be able to attend tonight.

After a while in walked Sal Mineo. No, it's Gary Hill and his producer Peggy Mitchell! With them was Gary's private secretary Wilma Sisney, and his three beauticians, Brenda Malone, Brenda Pulliam, and Brenda Weaver. Linda McVay was also in the group. She manages the Posy Shop that Gary bought to supply Sue with her favorite roses.

Next to arrive was Eddie Whistle, Principal of the Galatia High School, and the two agriculture teachers, Ralph Gann and Bruce Nevius.

Everyone was having a wonderful time laughing and talking with old friends, when the tune of the school song echoed from the gym. We hurried to the gym, and much to our surprise there was Bill Malone and his Tuny Tooters. Ruby Knight is the soloist. Leroy Parmley, a radio announcer, greeted us at the door.

After a while we heard a loud noise. All ran outside in time to see a huge plane land on the ball field. Connie Orto, a world famous debator, and James Gogue, the Italian playboy, were passengers on the plane. Keith Martin had piloted the plane to safety and Alice Mauer, the stewardess, had done much to settle the nerves of the passengers when they flew through Hurricane Hazel.

After everyone had said hello, we went back into the building and found that five more of our classmates had arrived. They were Larry Jones, the basketball coach at S.I.U., Larry Lewis and Jerry Stanley, the Daredevils in Barnman and Bailey's Circus, Jim Peyton, "Liz" Taylor's psychiatrist, and John Williams, the tester of a new space suit designed by Phillip Adams, the world famous scientist.

A silent hush fell over the crowd as Kay Edwards and Pat Thompson tripped in. They were dressed in the latest Paris styles. They had married millionaires from South America.

When John Pearson arrived in his private helicopter, we learned that he is President of the Looney Bubble Gum Company and Jerry Davis, who accompanied him on the trip, draws the cartoons for the gum wrappers.

Phillip Adams, the scientist, and Noel Hankins, a reporter of the New York Times arrived last. Noel was interviewing Phillip about his discoveries in the field of air travel. They had missed their plane and had to charter a private flight from New York to be with us.

We all had a grand time talking about our families, homes, friends, and careers.

JUNIOR-SENIOR PROM

1957-58 Prom Queen - PEGGY MITCHELL
Class President - GARY HILL

On the night of May 17, 1958, the Junior Class entertained the Seniors, teachers, and board members to an evening in Paris. The Eiffel Tower with its blinking lights, the striped awning, and the starry sky made you feel as though you were actually dining at a sidewalk cafe.

Following the banquet everyone danced to dreamy music which flowed gently from the jukebox. The highlight of the prom was the Queen coronation. Queen Peggy reigned from her throne beneath the scenic Arc of Triumph.
